Re: Application for Partial Bond Release
Huntington Canyon No. 4 Mine
INA/015/004, UT-004
Emery County, Utah

Dear Mr. Braxton,

Mountain Coal Company has completed Phase II of the approved reclamation plan for the Huntington Canyon No. 4 Mine. This is based upon the establishment of revegetation and sediment control in accordance with the approved reclamation plan, as verified in the attached 1993 Vegetation Monitoring Report and Sediment Production Evaluation.

In accordance with the provisions of R645-301-880, Mountain Coal Company is hereby applying for partial release of the performance bond. The original bond posted for this property was \$216,062.40, (60%) was released on November 10, 1986 upon approval of Phase I Bond Release. The present bond posted for this site is \$144,041.60. Mountain Coal Company is hereby applying for release of an additional 30% of the original bond, or \$108,031.20. This will leave an amount of \$36,010.40 to be held until final bond release. The disturbed area for this site was 12.29 acres, with an affected area of approximately 37 acres. The remaining bond would provide for approximately \$2,930.06/acre of disturbed area or \$973.25/acre of affected area.

Copies of letters for notification to land owners, agencies, and water companies in the area are enclosed. A copy of the newspaper advertisement placed prior to submittal of this application is enclosed. This advertisement ran for four consecutive weeks in the local area papers. Proof of publication is also enclosed.
