Re: Hidden Valley Mine
Access Road
PRO/015/022

Dear Tom:

This letter is to follow up our telephone conversation of May 30, 1979 relative to the additional information which the Division needs for a determination on the construction of this access road.

The Division needs one additional copy of each of the maps which you submitted with your letter of May 24, 1979. In addition, information on those maps in the way of ownership of land along the access road and at the mine site is needed.

One further commitment needed is information on the road construction standards. You will recall that we decided that the access road would follow the standards of a class 2 road under the Permanent Program.

Once we have these additional materials in hand, the Division will begin to determine if the access road construction can proceed as per your request of May 24, 1979.

Sincerely,

RONALD W. DANIELS
COORDINATOR OF MINED
LAND DEVELOPMENT
