RE: Notice of Intention to
Commence Coal Exploration
Emery County, Utah
CEP/015/007

Dear Mr. Chenoweth:

Thank you for your August 3, 1982 letter regarding Anaconda Minerals Company's proposed coal exploration operations in Emery County, Utah. The plan meets the requirements of parts 776 and 815 of the regulations promulgated under the 1979 Act, "Regulation of Coal Mining and Reclamation Operations", Title 40-10-1 et seq, Utah Code Annotated 1953. The Division hereby issues approval for the exploration operations as described in the exploration plans.

The Division requires some additional commitments at this time.

1. Should the road not be upgraded as an access road, but reclaimed, the revegetation will be the same as for other reclaimed areas.
2. If any explosives are used in removal of large boulders during road construction, the applicant should adhere to regulations covering the use of explosives, UMC 817.61-.68.

Upon completion of the exploration operations the Division will require notification of completion and a description of the plugging and reclamation activities which have taken place for each site.

Thank you for your cooperation. In reply, please refer to CEP/015/007. If any questions should arise please call me.

Sincerely,

A large, stylized handwritten signature in black ink, appearing to read 'Thomas N. Tetting', is written over the typed name and title.
