Inspection Memo
to Coal File:RE: Hidden Valley Mine
Soldier Creek Coal Company
INA/015/007, Folder #7
Emery County, Utah

A complete inspection at was conducted at the above mentioned mine site on March 20, 1984. The purpose of the inspection was to insure that no recent mining activity has taken place.

The area has not been disturbed since the last inspection (November 1983) and no signs of recent activity were noticed.

The topsoil pile seems to be doing reasonably well. New growth is evident although there is evidence of grazing by cattle.

No problems were evident at this time.
