RE: California Portland Cement Company, Hidden Valley Mine, INA/015/007, Emery County, Utah

This memo is to provide guidance on the review of the Hidden Valley Coal Mine.

Since this mine ceased operation prior to August 1, 1981, the interim regulations adopted by the Division in 1978 are the applicable regulations. Attached is a regulation assignment sheet for this review.

The primary basis for our review of this approved MR-1 is point No. 5 of the letter from California Portland Cement (copy attached). Please examine the approved MR-1 and associated material and identify all areas dealing with final reclamation which are not sufficiently addressed in the plan. In your write up, make sure to spell out what is deficient and what is needed to be sufficient.

In addition, the following individuals should address the indicated items in the attached letter in the course of the review.

Point #1 - Pam  
Point #3 - Kathy  
Point #4 - Pam

Thank you for your cooperation on this somewhat unique review situation.
