Dear :

Re: Determination of Completeness, California Portland Cement Company, Hidden Valley Mine, INA/015/007, Folder No. 2 and 6, Emery County, Utah

The Utah Division of Oil, Gas and Mining (Division) has completed a review of the Reclamation Plan (MRP) and amendments submitted by California Portland Cement Company, for the Hidden Valley Mine. This Division has determined the plan to be apparently complete. In compliance with Section UMC 786.11(b) and (c) of the Utah Coal Mining Reclamation Act (UMC, Section 40-10-1 et seq.) notice is hereby given to all appropriate agencies having jurisdiction over or an interest in the area of the operations that a complete plan is available for public review for this operation.

The following areas comprise the permit area for the Hidden Valley Mine:

Township 23 South, Range 6 East, Salt Lake Baseline and Meridian:  
Section 18: all  
Section 17: west 1/2

The Division of Oil, Gas and Mining will now prepare a Technical Analysis (TA) to determine whether the plan meets all the criteria of the Permanent Program Performance Standards according to the requirements of UCA, Section 40-10-1, et seq.

Upon completion of the TA for said plan, a decision will be made as to approval or disapproval of the permit application. No decision will be taken by the Director for a minimum period of 30 days after submission of this Notice of Availability to the
