Re: Ivie Creek, Hidden Valley Project  
1989 Stream Monitoring Work

Dear Mr. Braxton:

Enclosed are the results of the September 1989 stream monitoring work for Ivie Creek at the Hidden Valley Project. Samples and field measurements were taken on September 21.

Both the field results, including work sheets, and the laboratory results are included here. Site #1 is the upstream monitoring site and is located on the west side of the property. Site #2, the downstream monitoring site, is located just to the east of the property line.

Please contact me if you have any questions regarding this matter.

Sincerely,

John W. Rains  
Chief Mining Engineer  
California Portland Cement Division  
CalMat Co
