Re: Hidden Valley Coal Company
 ACT/015/007

Dear Ms. Grubaugh-Littig:

This is in response to your December 6, 1991 letter requesting information on the use of the "old road" adjacent to Ivie Creek.

To the best of my knowledge and belief the following statements are true and correct:

1. Bulk coal samples were removed from the Hidden Valley site via the "old road" adjacent to Ivie Creek pre-law (before August 3, 1977), such removal occurring on or about June, 1977.

2. No activity occurred on the Hidden Valley site which necessitated the use of the "old road" at any time after August 3, 1977.

3. On or about April, 1980 the "new road" was constructed leading from the end of the paved Emery County Road to the pad area adjacent to Ivie Creek. Since that time all access to the site has been via the "new road".

I have researched the exploration files of the Hidden Valley site and have not found any evidence of post-law activity on the "old road".

Please keep in mind that the Hidden Valley site was never developed and that there was not constant activity occurring, only sporadic exploratory work.

I hope this information is useful. Please give me a call if I can be of further assistance.

Sincerely,

HIDDEN VALLEY COAL COMPANY
