SUBJECT: Hidden Valley Coal Company

Dear Pam:

As I discussed with you last week, JBR Consultants Group, as Hidden Valley Coal Company's representative, will be making another attempt to locate DH-4. This attempt will utilize information obtained from the original surveys of the site in the early 1980s. A theodolite and an electronic distance meter will be used to recreate a portion of the survey based upon marked section corners and 1/4 corners. Once the site is located, it will be marked and photographed. Site condition will be noted.

Tom Munson has been advised of our scheduled trip to the site (September 9, 1993). He or any Division representative is welcome to observe on that date.

If you have any concerns or questions regarding this, please feel free to call me (801-637-5565).

Sincerely,

A handwritten signature in cursive script that reads 'Karla Knoop'.
