MEMORANDUM

TO: Bill Malencik, DOGM Price

FROM: Karla Knoop, JBR

DATE: September 28, 1994

SUBJECT: Hidden Valley Coal Company, Markers

On September 27, 1994, JBR Environmental Consultants, Inc. (JBR) placed new perimeter and buffer zone markers at the Hidden Valley reclamation site. These markers consist of surveyor pin flags placed along the base of the road fill, and along the base of the disturbed area next to Ivie Creek, to comply with regulations at R645-301-521. JBR intends that the markers remain temporarily until more durable t-post markers can be installed. We request that the Division concur with the location of the temporary markers before replacement with t-posts. To this end, we propose a site visit Thursday, October 6, or at your earliest convenience.

Thank you very much.
