SYNOPSIS

ANALYSIS

The application can not be approved until the below listed items are clarified.

1. R645-303-321.300. The application interchanges the name Consolidation Coal Company and Consol Energy, Inc. as the new permittee/operator throughout the application. 3. R645-303-321.300, R645-301-113.300. The application fails to provide a list of any and all violations pertaining to air or water environmental protection in connection with any coal mining and reclamation operation owned or controlled by the applicant.
4. R645-303-322. The application must contain an affidavit of publication.

5. R645-303-323. The application must provide a performance bond in an amount sufficient to cover the remaining reclamation obligations.
