PERMIT NUMBER: ACT/015/007

DATE OF INSPECTION: 12/22/97

(Comments are Numbered to Correspond with Topics Listed Above)

### 1. PERMITS, CHANGE, TRANSFER, RENEWAL, SALE

The reclamation permit will expire January 30, 2002. One condition was attached to the permit which requires Consol to comply with the KY, WV, and OSM settlement agreements. The 1997 insurance documentation is in order. Policy 5YL 945 444-01 is held by Lumbermens Mutual Casualty and expires 1/1/97. No copy of the insurance policy could be found in the Division's office.

Surety Performance Bond No. 331474 written by Seaboard Surety Company in the amount of \$90,758 was increased to \$95,501 thru an executed rider, effective January 3, 1997.

### 2. SIGNS AND MARKERS

The permit entry had been repainted.

### 4. HYDROLOGIC BALANCE:

**c. Other Sediment Control Measures** Sediment control measures for the B seam were discussed.

**d. Water Monitoring** No water quality reports for 1997 could be located at the Division office. The permit requires May and September monitoring.

### 12. BACKFILLING AND GRADING

Backfilling and grading work was completed on the B Seam November 30. At this time it is hard to evaluate the amount of rock actually put on the surface. The surface did not appear to have a lot of smaller rock but it is expected that after several rains the rock will become more apparent.

### 13. REVEGETATION

The regraded area was seeded with half the seed mixture. The remaining seed will be spread after some moisture has settled the soil. The regraded seedbed was too light and powdery.

PERMIT NUMBER: ACT/015/007

DATE OF INSPECTION: 12/22/97

Some seed may have settled to deep for germination, so half will be seeded later this winter. The interim seed mixture needs to be seeded on the road and the rock borrow.
