Please number comments to correspond with topics on previous page.

General Comments. Conducted a complete inspection of the Hidden Valley mines. The records review included:

- DOGM permit renewal dated 1/29/97 with attachment A covering an OSM settlement agreement.
- Water monitoring for high water was recently completed, but information will be submitted to the Division when data is received from the lab.
- Surety bond & insurance is on file at both the mine and Division offices.

Field The field conditions are no different than reported in the May inspection performed by the undersigned and Susan White of the Division.

Discussed the July inspection with permit supervisor Joe Helfrich. Current plans call for both Mr. Helfrich and the undersigned to participate in the July 98 inspection. The purpose of the inspection will be two fold:

- (1) look over regrading & seeding of the B bench and
- (2) Discuss maintenance requirements under Utah Coal Rules
