2. Signs and Markers

The mine identification sign is posted at the end of the county road and start of the mining permit area. The sign is a hand made sign, white background with black writing from a magic marker. The sign contained the required information.

4.c Hydrologic Balance: Other Sediment Control Measures

There is only one other sediment control measure on site. The control measure is a silt fence. The silt fence is adjacent to the mine identification sign. The silt fence structure was checked during the inspection and was found to be functional.
