## **1. Permits, Change, Transfer, Renewal, Sale**

A general overview of the permit was done in conjunction with the partial field inspection. Some of the surface maps and text in the permit were used to determine the history of the site.

## **2. Signs and Markers**

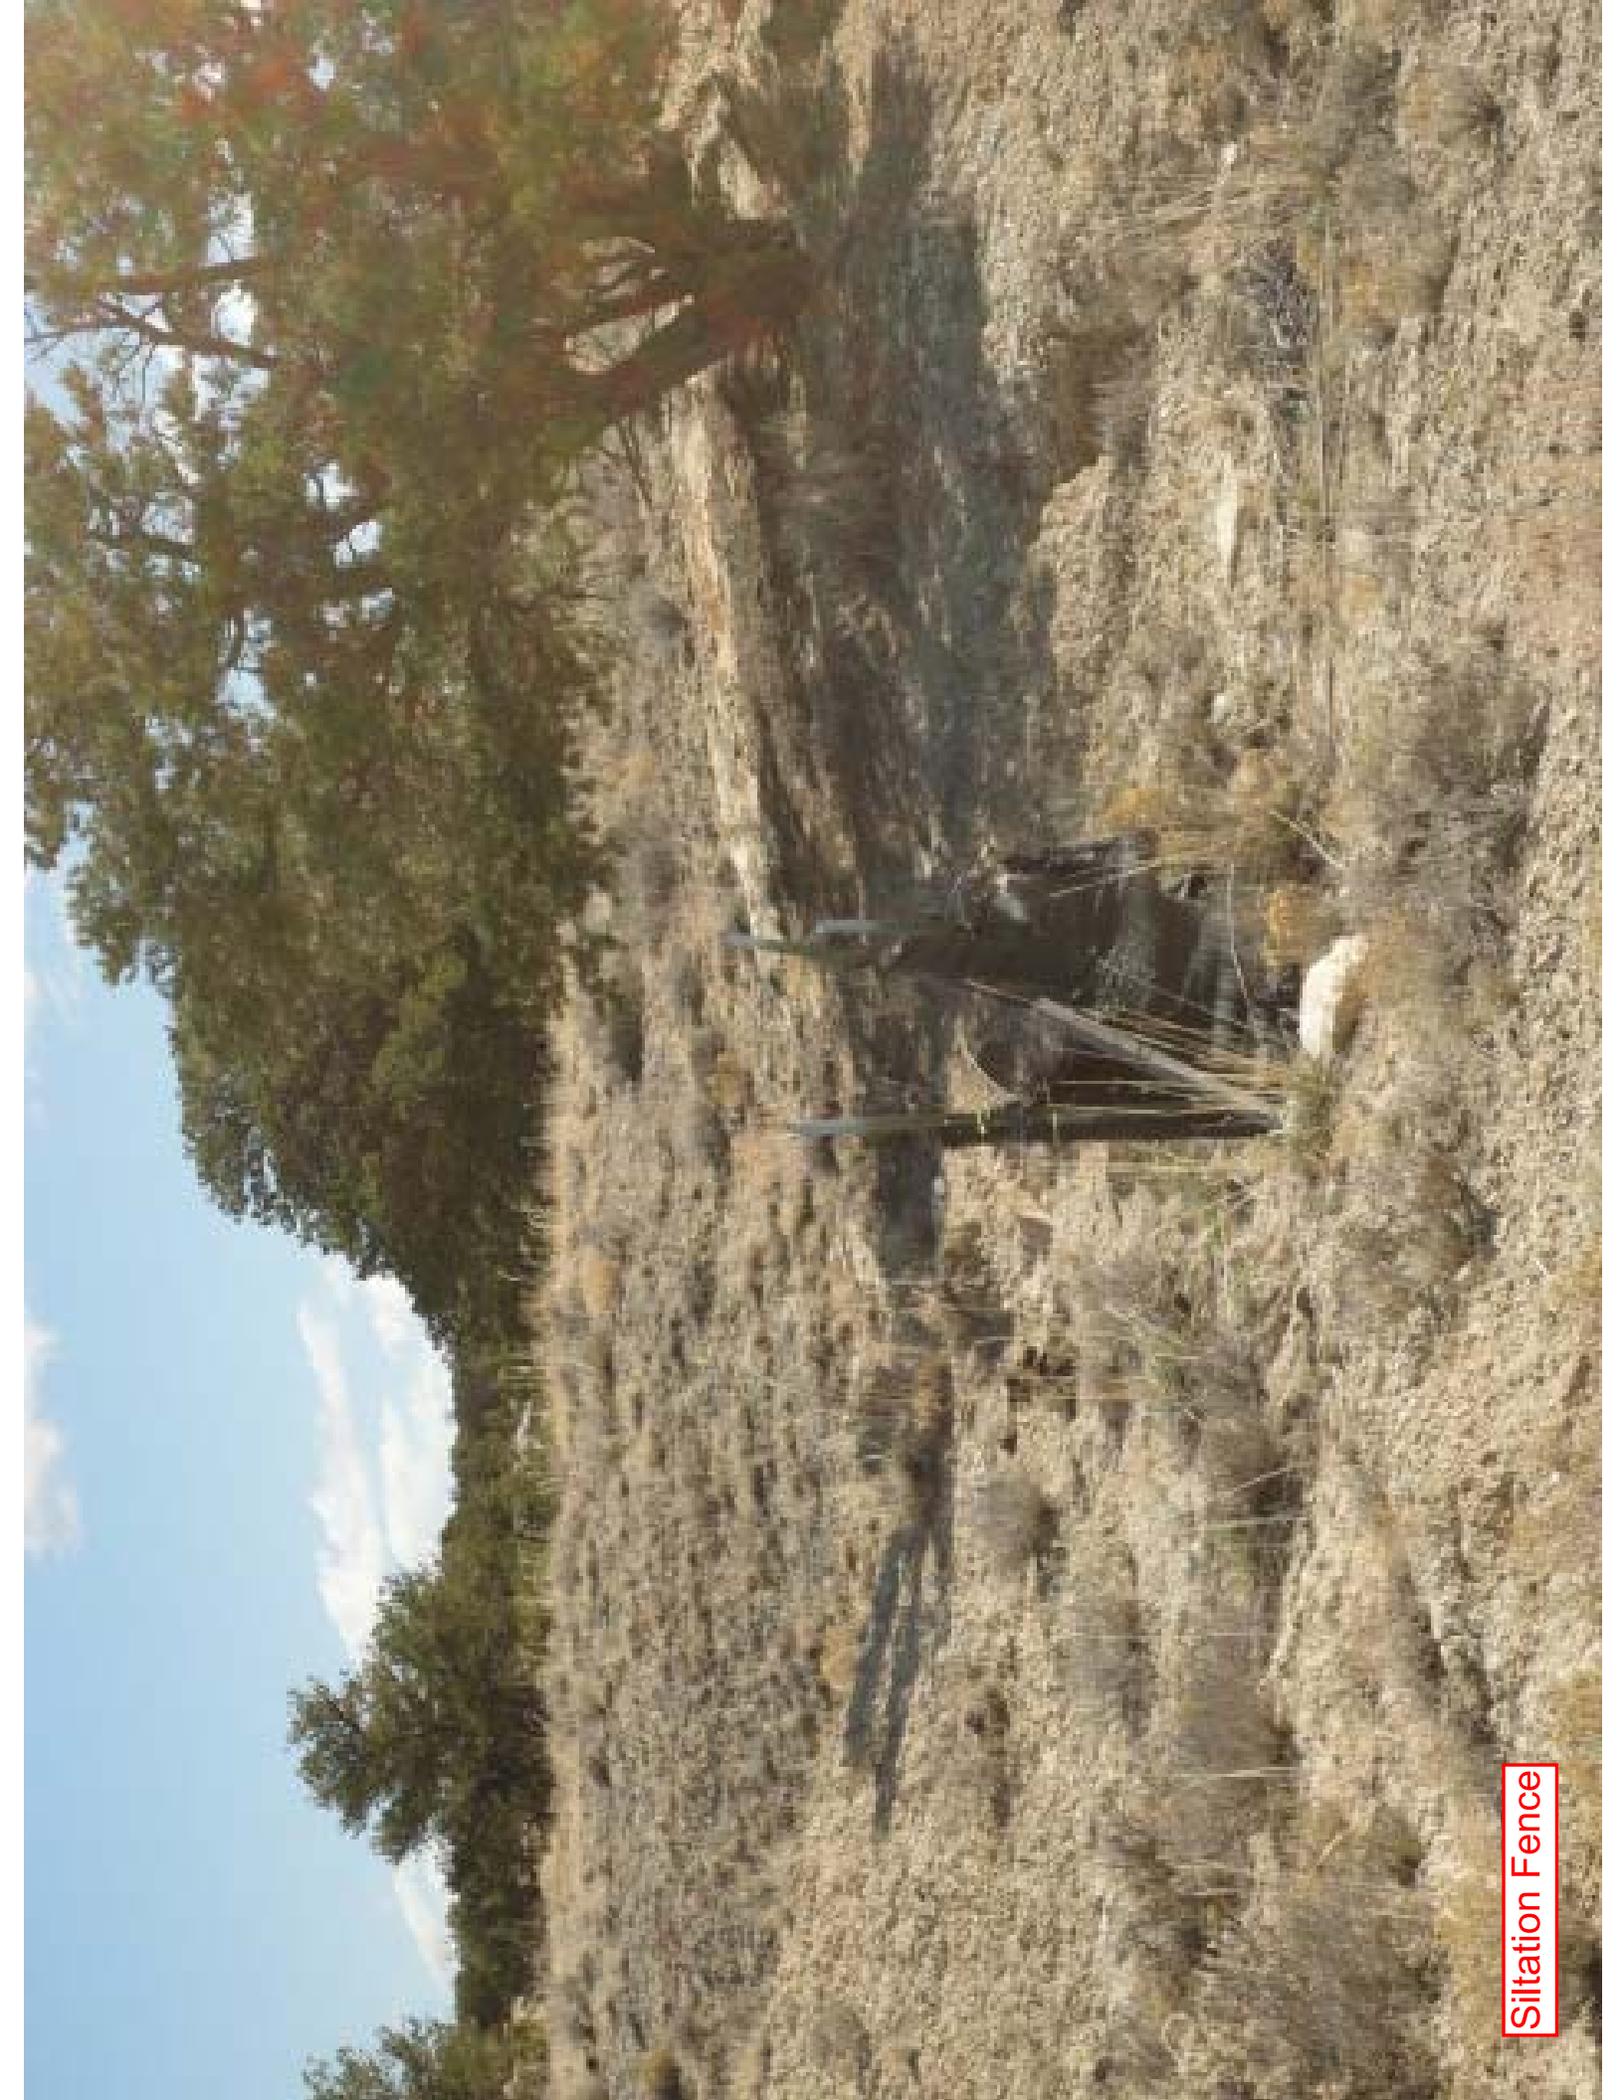

A small hand made identification sign is posted at the end of the asphalted county road. The information is hand written with a permanent magic marker and displays the name, address, phone number and Utah mining permit number. These items fulfill the requirements of the regulations.

## **4.c Hydrologic Balance: Other Sediment Control Measures**

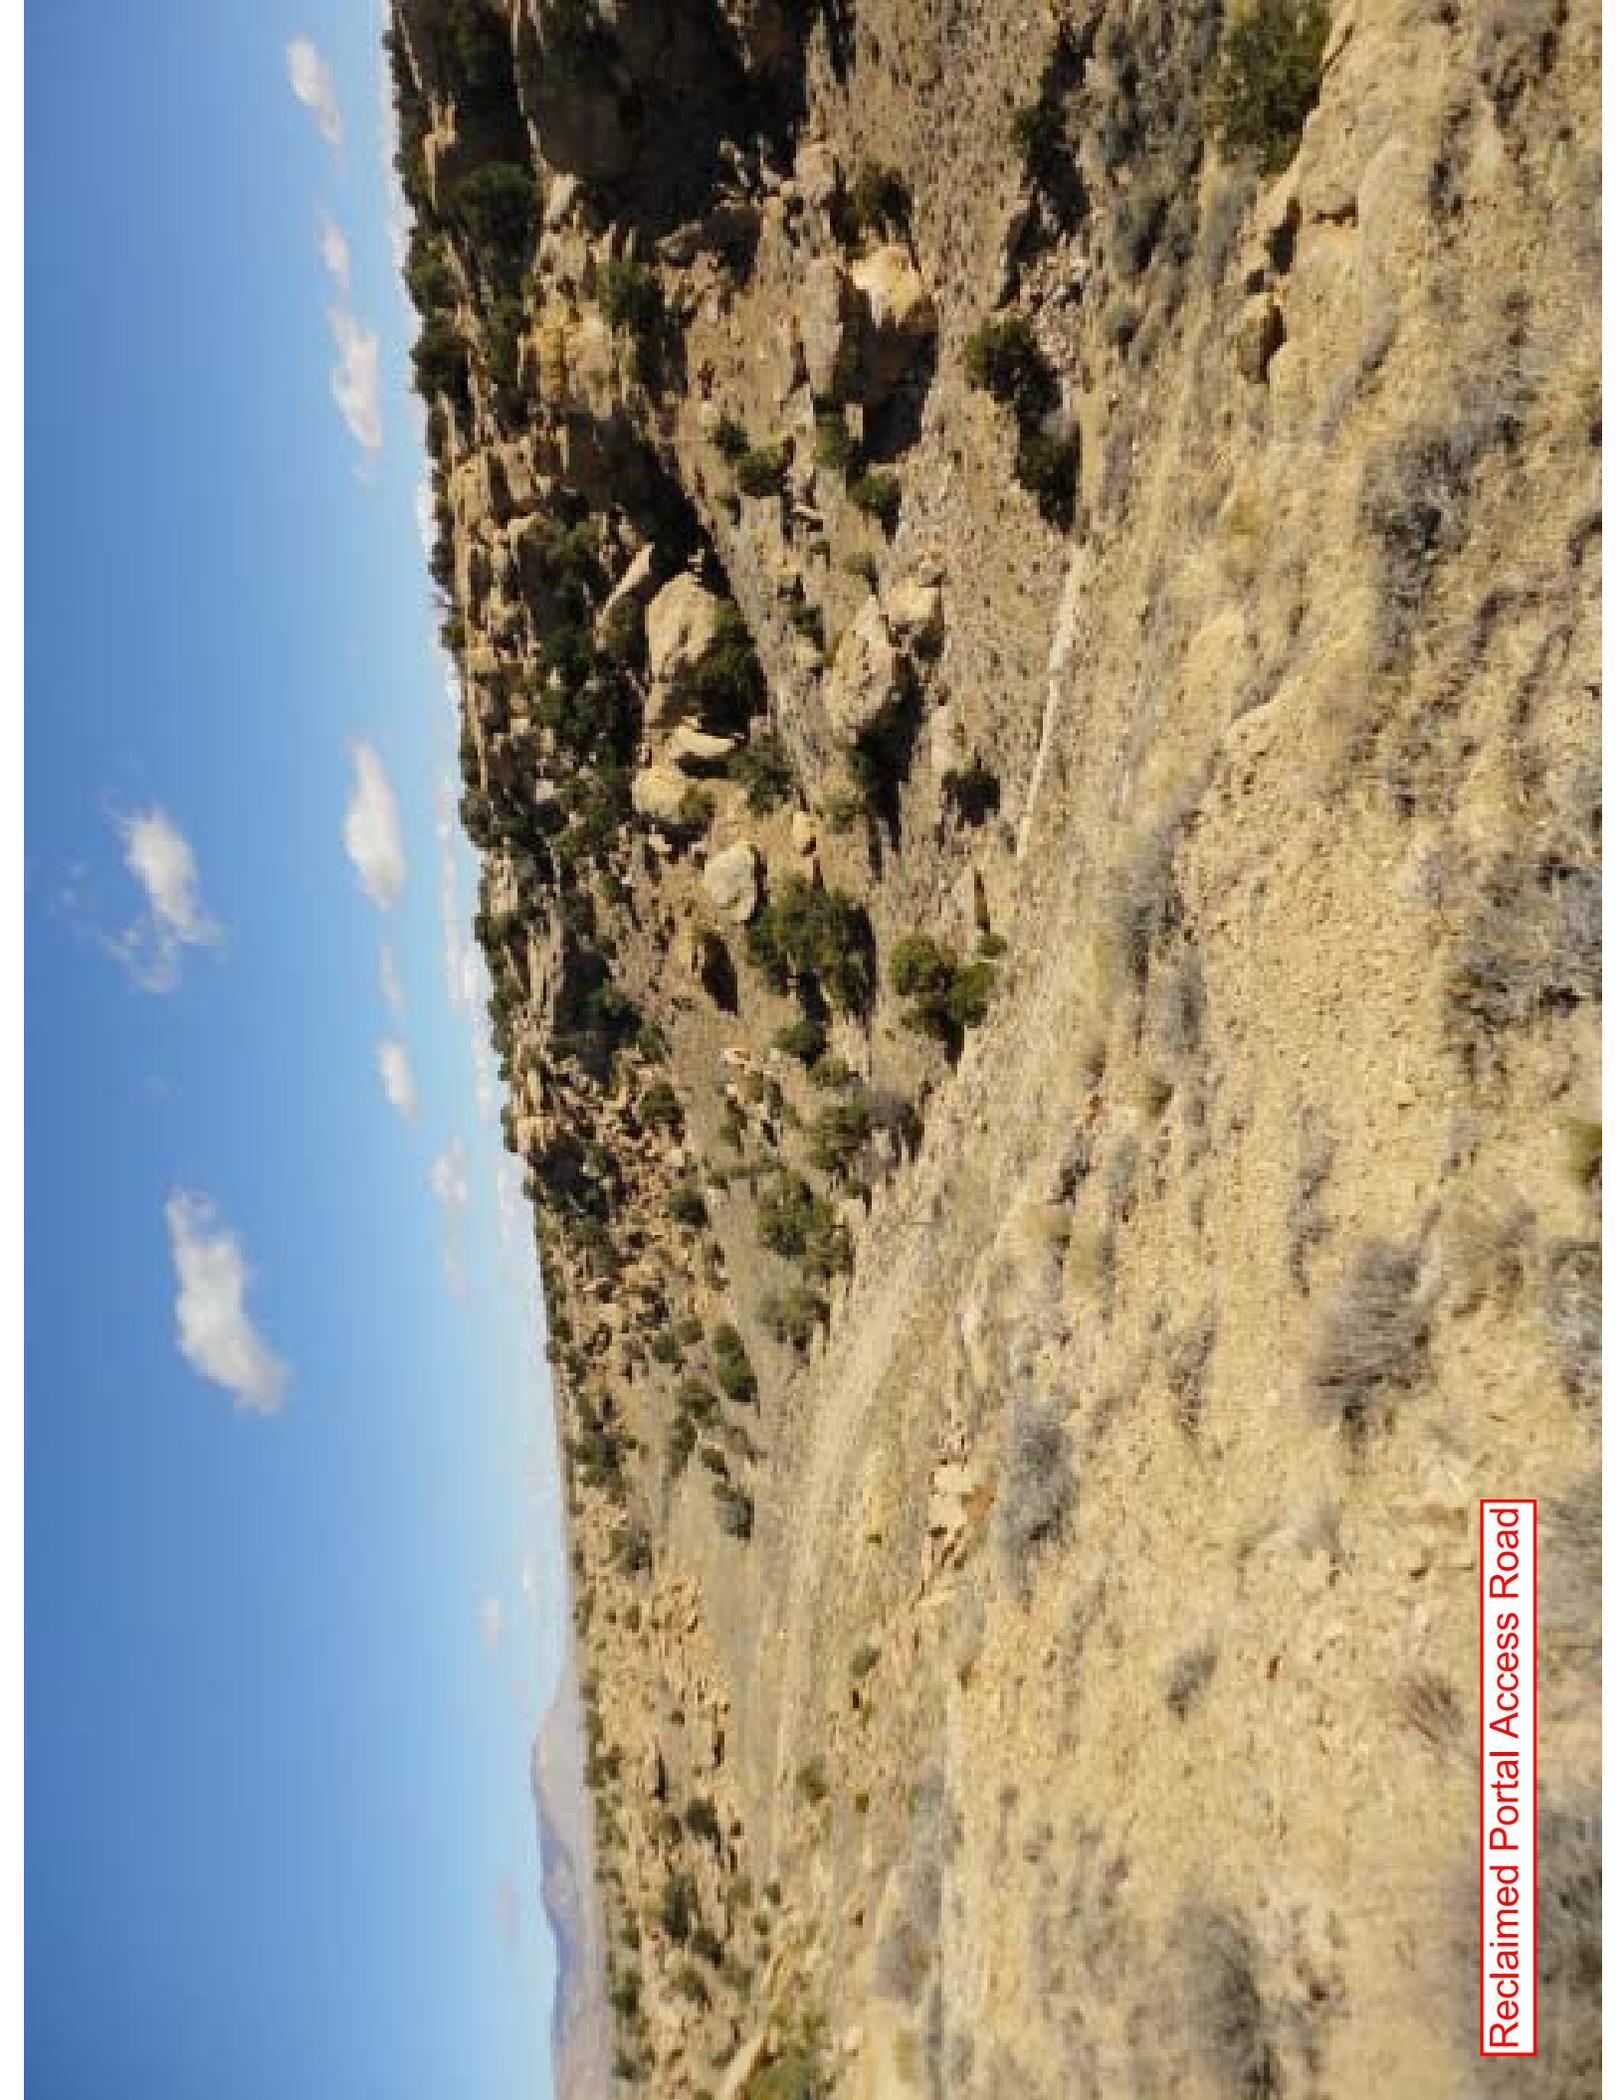

The small siltation fence adjacent to the mine identification sign was checked and found to be functional.

## **16.a Roads: Construction, Maintenance, Surfacing**

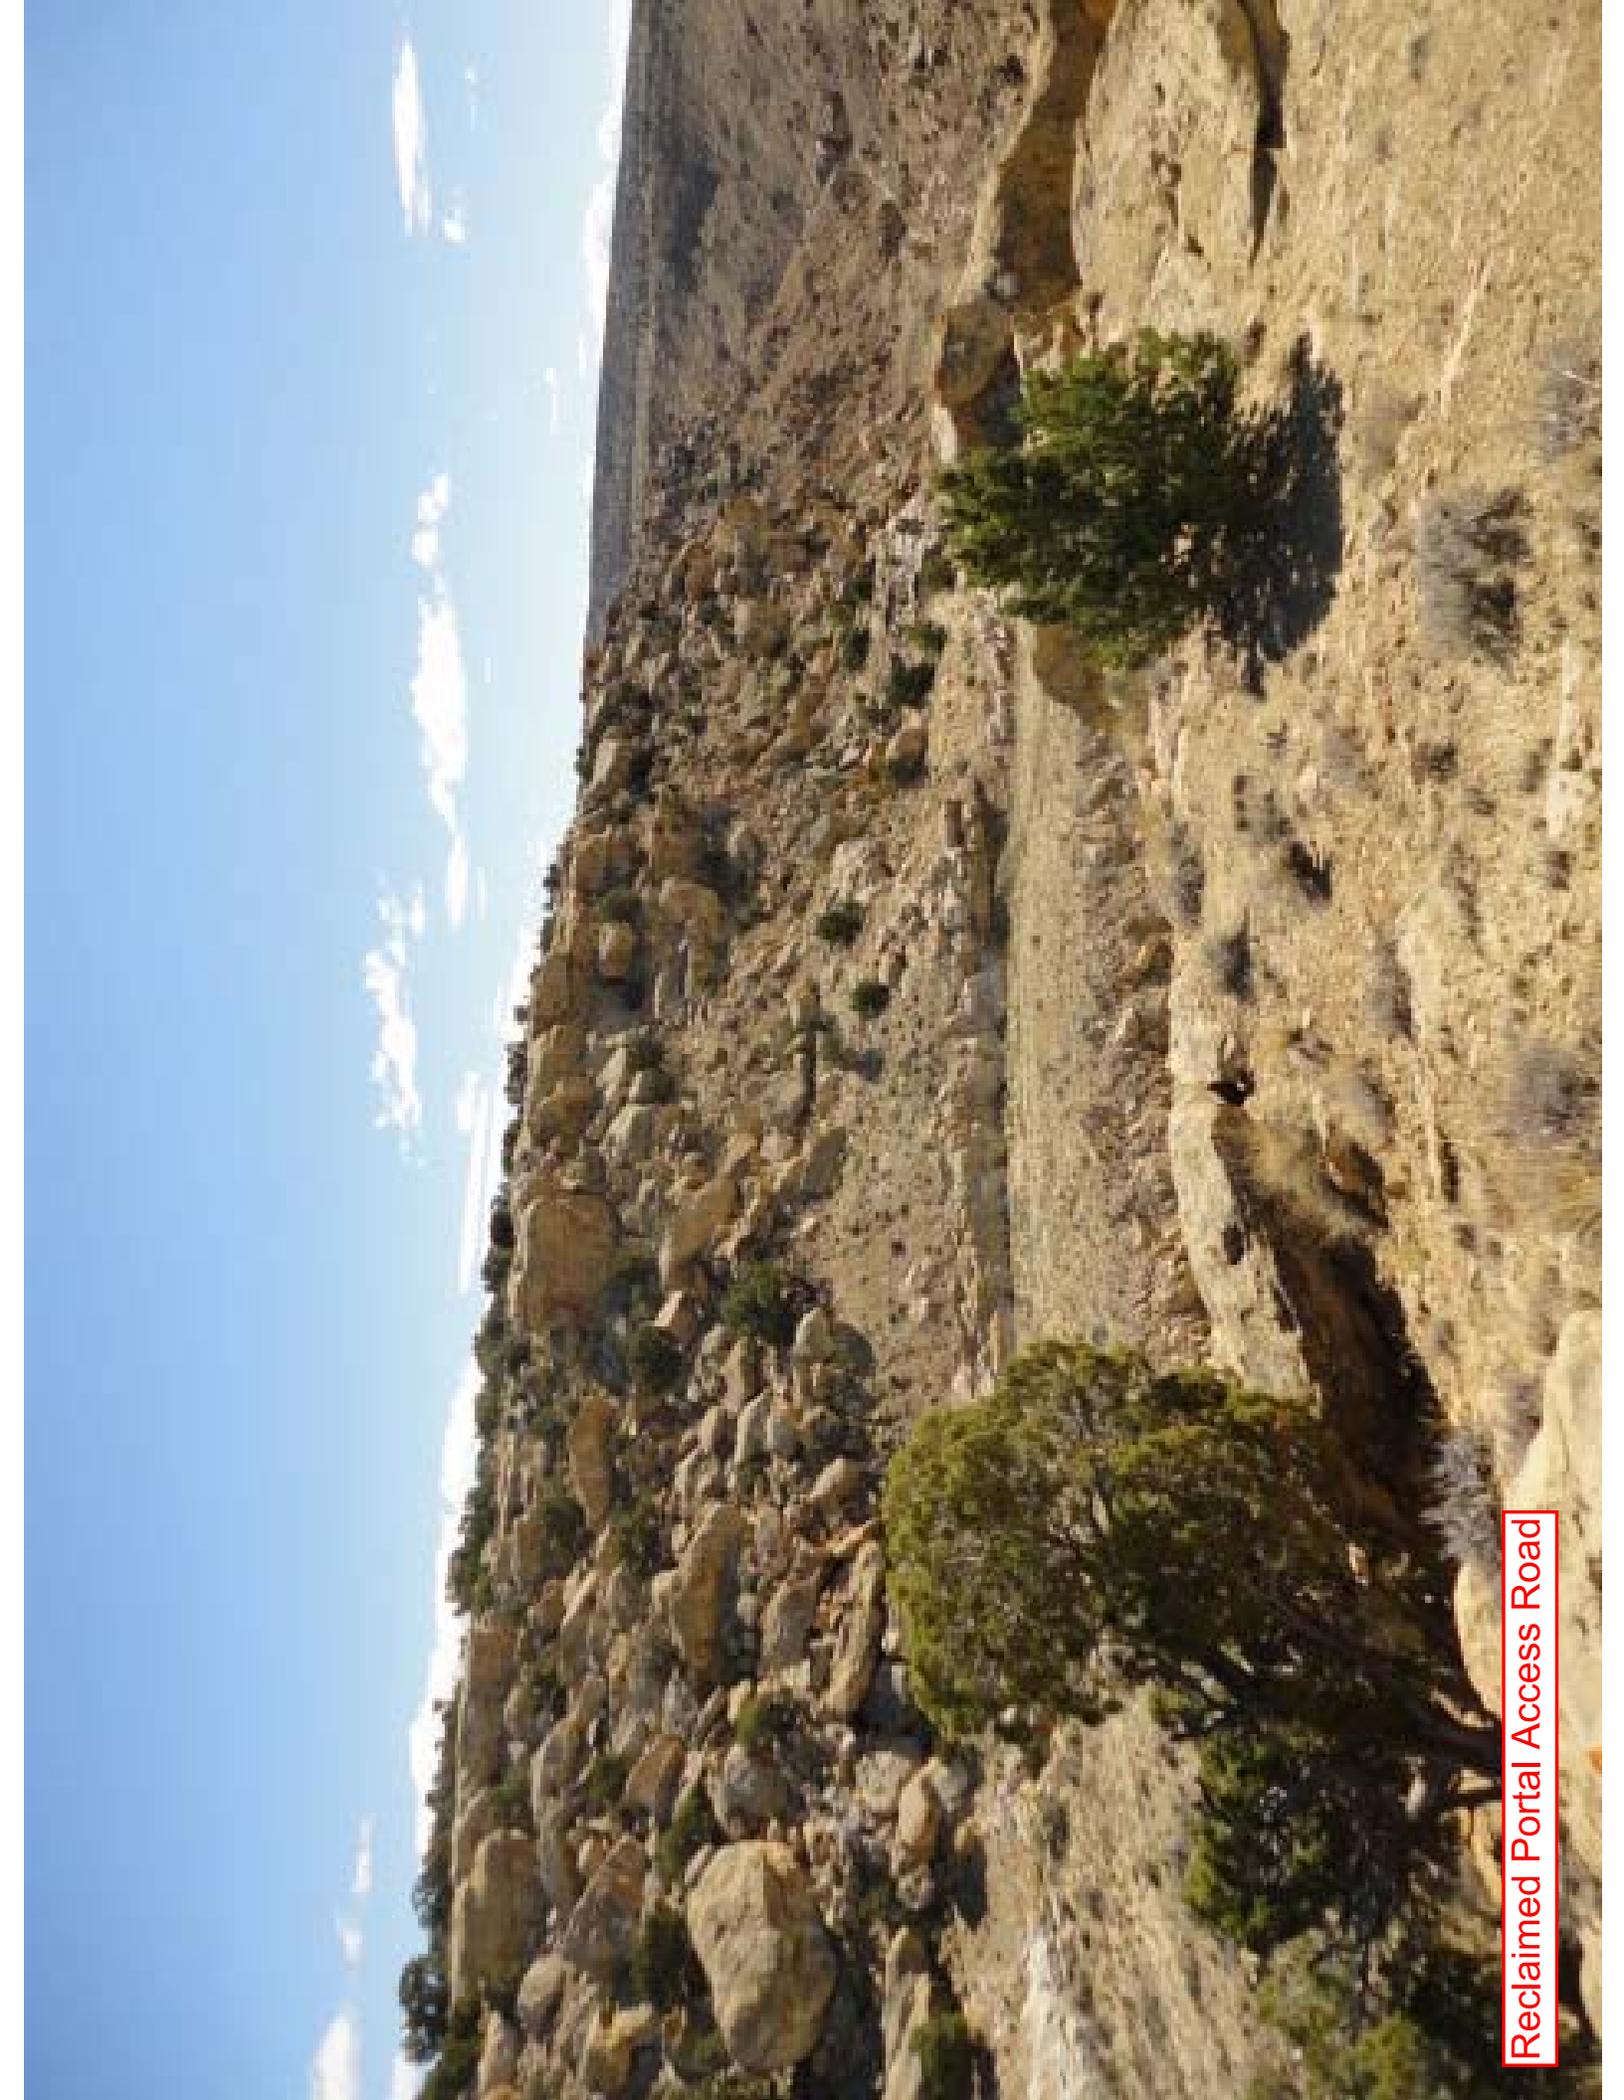

The reclaimed access road leading to the reclaimed portal area was observed from a distance. No problems were observed.
