Salt Lake City, Utah

ATTN: Ronald W. Daniels

Dear Mr. Daniels,

In your letter of April 25, 1979, on clarification of violations at Trail Mountain Mine, you requested certified designs for the sediment ponds.

Preliminary design has been completed however, some on sight testing is necessary for determining pond design. I am therefore requesting a 30 day extension for submission of these plans to allow time to coordinate with the Forestry Service and to finalize the drawings.

Enclosed is a copy of the preliminary surface drainage design for the mine.

Sincerely,

A handwritten signature in cursive script that reads "David Mills" followed by a flourish.

David Mills  
Mining Engineer
