RECEIVED  
SEP 15 1981

DIVISION OF  
OIL, GAS & MINING

Dear Mr. Feight:

Enclosed is a revised map for Ute Energy Company's exploration plan on Federal coal lease U-5135. Ute Energy has changed the location of two holes, 81-6-3 and 81-6-2. The new locations are shown on the map.

An onsite inspection for these relocations was held September 4, 1981, with personnel from our office and the BLM in attendance. The new sites and accesses posed no new concerns or problems.

We appreciate the prompt review of the original plan by Gilbert Hunt of your staff dated August 31. If you have any comments concerning these new relocations, please contact Stephen Falk of this office or myself.

Sincerely yours,

*Jackson W. Moffitt*  
Jackson W. Moffitt  
District Mining Supervisor
