RE: Subsidence Monitoring  
Program

Dear Mr. King:

Pursuant to UMC 784.20, Subsidence Control Plan, the applicant should submit the subsidence monitoring plan in total, so that the Division can assess that monitoring, if any, will meet the requirements of UMC 784.20(b)(3)(v). In your case, concurrence for adequacy of the monitoring plan is required from the Office of Surface Mining (OSM) and the U. S. Forest Service (USFS). It is recommended that you submit this plan for approval prior to instituting a monitoring plan so that you will not have to re-establish your stations.

Sincerely,

JAMES W. SMITH, JR.  
COORDINATOR OF MINED  
LAND DEVELOPMENT
