RE: Approval Minor Modification
Underground Development
Intake Airways
ACT/015/009

Dear Mr. King:

Pursuant to your request for driving two entries expanding the mains to a six entry system is hereby approved. The Division finds that this action is in compliance with the performance standards of Utah's permanent program.

The USGS states that USGS and OSM have approved this minor modification for the Federal Coal. The only question that has been raised is the panel development in State section. The double wing development shown in Section 36 cannot be approved at this time without State Lands concurrence that these plans are in compliance with UMC 817.56, coal recovery.

Sincerely,

JAMES W. SMITH, JR.
COORDINATOR OF
MINED LAND DEVELOPMENT

JWS/LCS/vp

cc: Don Crane, OSM
Jack Moffit, USGS
John Blake, UT Div of State Lands.
