Attention: Mr. Ken Wyatt

Dear Mr. Wyatt:

Enclosed please find the culvert design to abate sediment control violation. We would like approval to extend the 66 inch culvert (as shown) which has been approved for the lower part of the creek.

This extension should take care of all future sediment contribution violations.

Should you need further information or have any questions, please contact me after July 12, 1982 at 748-2140. Your consideration in this matter is greatly appreciated.

Sincerely,

NATOMAS TRAIL MOUNTAIN COAL COMPANY
