RE: Reference Area Approval

Dear Steve;

In response to your visit to the mine site on November 7, 1983 for approval of reference areas (Riparian Community and Sagebrush-Grass Community). I am, at this time, making a formal request for the Divisions approval to use these sites as reference areas. The areas in question have permanently been marked.

Enclosed, you will find a productivity statement from the Soil Conservation Service. Also enclosed, you will find a map of our surface area which shows the delineated reference areas.

Should you need further information or have any questions, please feel free to call me at 748-2140.

Sincerely;

TRAIL MOUNTAIN COAL
