RE: ACR Comments, Natomas Coal Company - Trail Mountain Mine
ACT / 015 / 009

Dear Jim:

Please find enclosed the soil laboratory analysis taken in the disturbed areas of the mine sites at Natomas' Trail Mountain Mine near Orangeville, Utah. In addition, Figure 8-2 "Post Mining Contour - Topsoil Map" is also enclosed which depicts the soil sample locations and the post mining topsoil locations.

This material will aid your staff in the completeness review of the Trail Mountain Mine's permit. Natomas would hope to be notified within the next week or two of any additional deficiency; otherwise, we would hope to have the permit deemed complete by the Division of OSM.

If there are any questions, feel free to contact me.

Sincerely yours,

Jim Schlenvogt

Jim Schlenvogt
Senior Mining Engineer
