Attention: Mr. Thomas Munson

Dear Thomas: 30 DAYS - 2 WEEKS -

Please find enclosed some cross-sections of the proposed disturbed area drainage system.

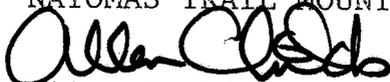

We plan to implement a drainage ditch and berm system to catch any fugitive runoff from our permit property. At this time, we do not plan on putting in concrete sediment traps - if this system as proposed does not work effectively, we will implement the concrete sediment traps.

Please refer to the letter dated December 28, 1982.

Should you have any questions or need additional information, please do not hesitate to contact me.

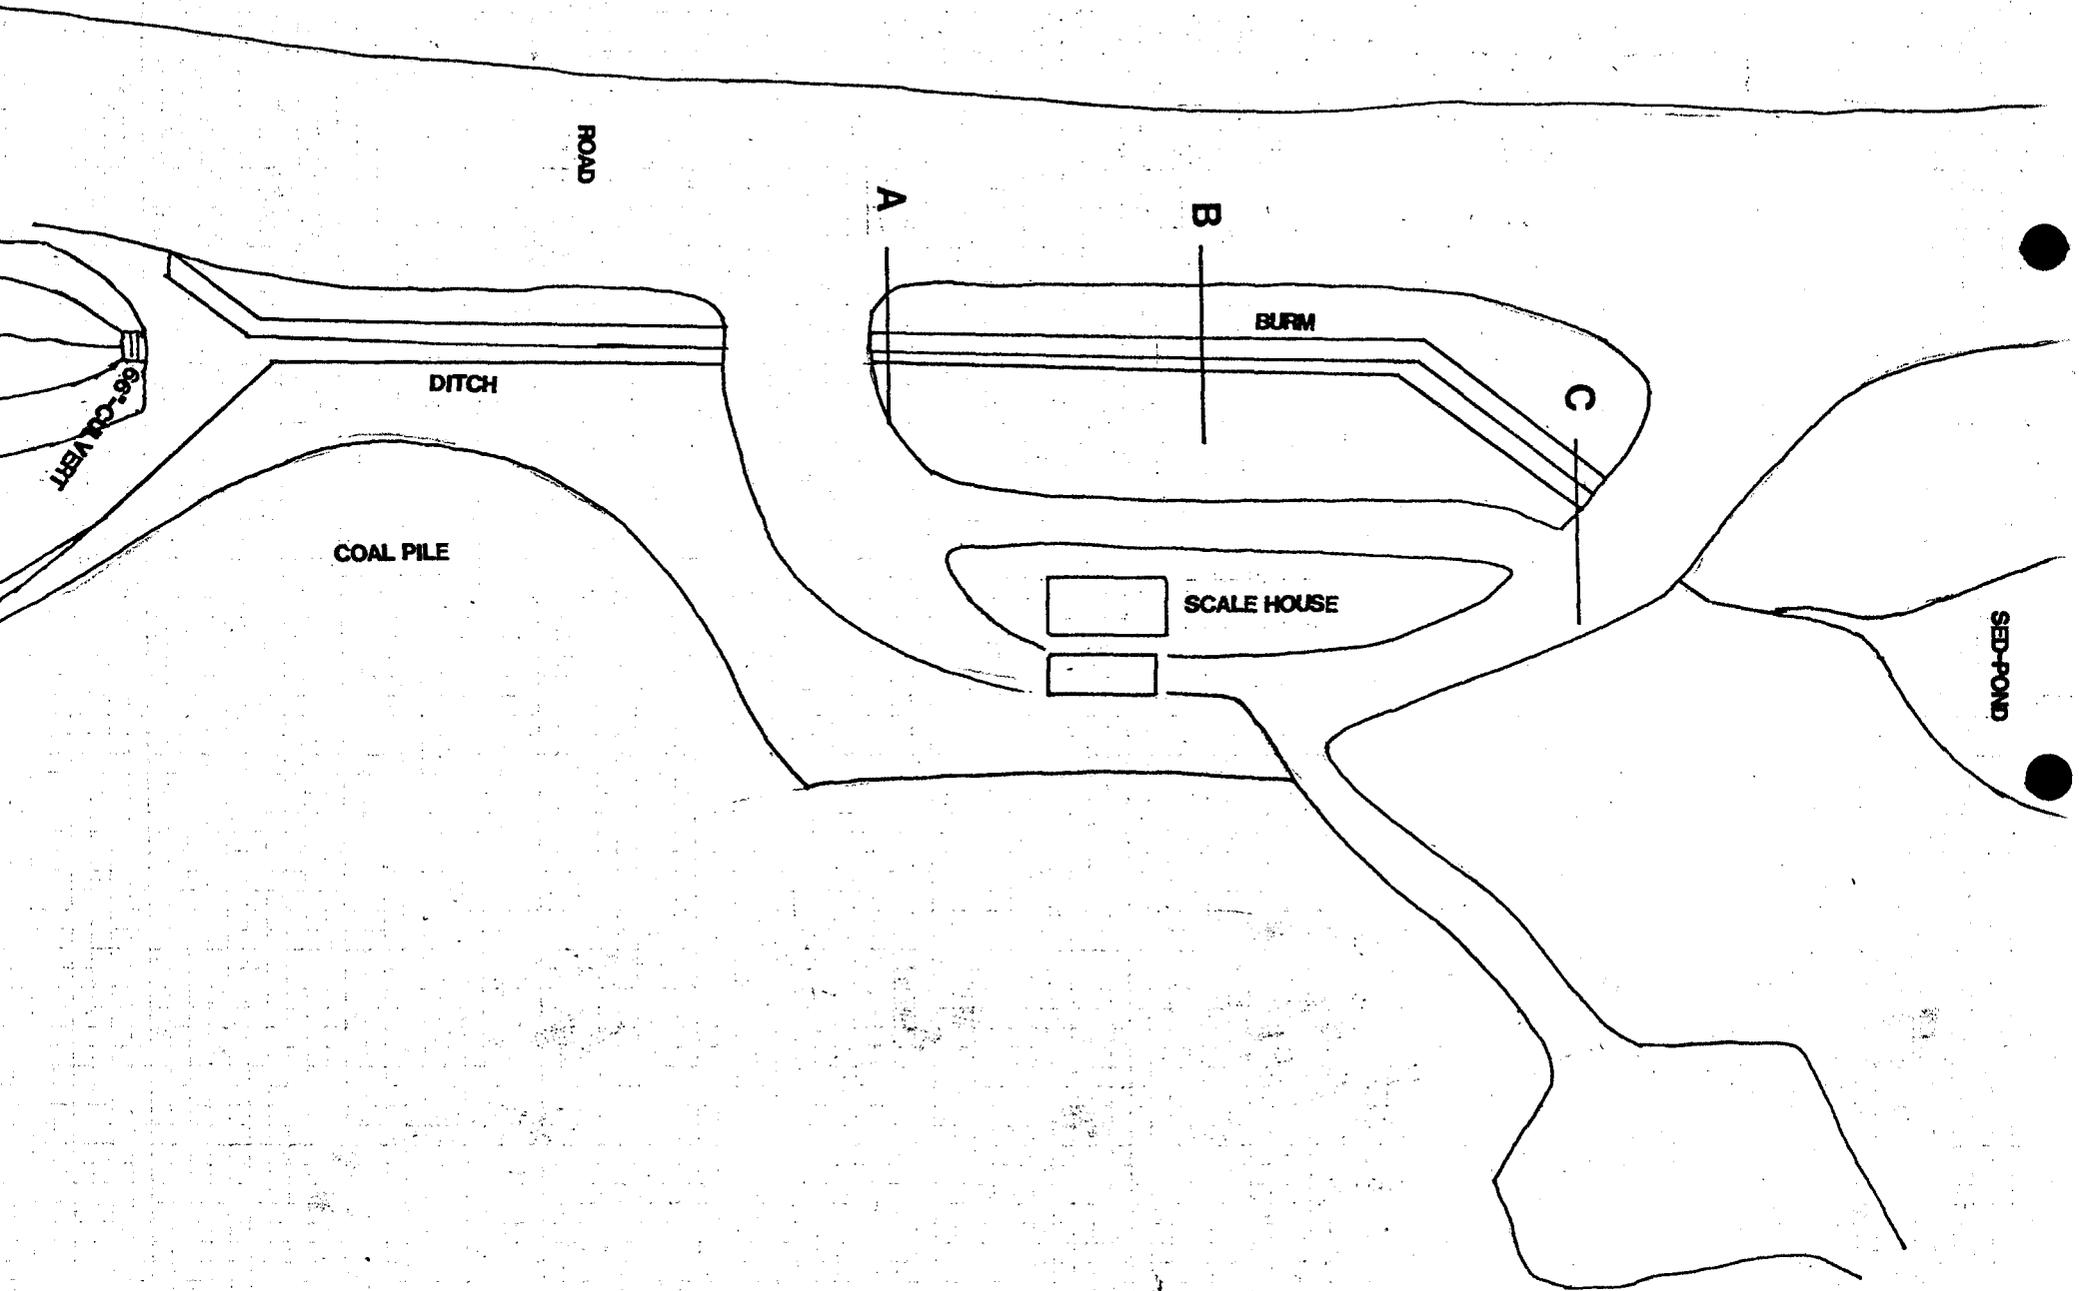

Sincerely,

NATOMAS TRAIL MOUNTAIN COAL COMPANY

Allen Childs
Mine Engineer
