Dear Ms. Nielson;

In response to your letters of 9/25/85 and 10/23/85, regarding the permitting of coal preparation plants and loadouts, I would at this time inform you and the Division that Trail Mountain Coal Company no longer has under it's control a preparation plant, coal loadout or any other off-site facility that would require permitting or inspection by the Division of Oil, Gas and Mining.

This letter is to advise you and Division and to relieve Trail Mountain Coal Company of any further responsibilities as to compliance with DOGM regulations pertaining to an off-site preparation plant or loadout facility. I feel at this time there is no need to initiate an application for a reclamation permit.

Please feel free to contact me should you need attitional information or if you have any further questions.

Sincerely;

Allen Childs
