**DIVISION OF OIL
GAS & MINING**

Dear Sandy,

I understand from talking to Joe that we were issued an NOV. on 8/22/85 for failure to construct the inlet on the 66" diversion culvert. I tried to call you this morning but you were away from your desk. I talked with John Whitehead and arranged for a meeting on wednesday August 28, 1985 at 10:00 a.m. to discuss several matters, one of which is the inlet structure.

We have received bids to construct the inlet as diagramed in our MRP, also I have had some design work run on the as-built inlet. At this August 28 meeting I would like to review the two proposals with you and your staff.

Once we have had the opportunity to discuss this issue, Trail Mountain Coal will proceed immediatly with the inlet work.

Hope that you can be available for the August 28th meeting.

Thank you for your time & consideration.

Sincerely,

APC

Allen P. Childs
Engineer
