Mr. Allen Childs
Trail Mountain Coal Company
P. O. Box 370
Orangeville, Utah 84537-0370

Dear Mr. Childs:

RE: Approval of Revised Design for Trash Rack on the
Cottonwood Creek Culvert, Trail Mountain Mine,
ACT/015/009, #3, #4 and #7, Emery County, Utah

Division Hydrologist Tom Munson has reviewed the design plans submitted to the Division on the revised design for the trash rack at the inlet of the Cottonwood Creek culvert. The Division hereby grants approval to construct this structure as shown in the design drawings. If you feel the spacing of the bars on the trash rack is too wide (24 inches between bars) as shown, then the Division approves the option of decreasing that spacing down to 15 inches, if you so desire.

Thank you for your cooperation in this matter.

Sincerely,

A handwritten signature in cursive script, reading "John J. Whitehead".

John J. Whitehead
Permit Supervisor/
Reclamation Hydrologist
