RE: Response to conditions of
of culinary water well at the Trail Mountain
Mine Site.

Dear Mr. Hedberg,

In response to your August 11, 1987 letter, Beaver Creek Coal, Trail Mountain No. 9 Mine formally submits this written acceptance to the three conditions required of the Division.

The installation of this well (TM-3) is now complete and all conditions were observed (condition No. 2).

Response to condition No.1 and No.3 are being prepared and will follow shortly.

On October 23, 1987 a pump test was conducted on TM-3, with technical assistance provided by Mr. Jim Frickie of the Division.

As mentioned the TM-3 well is completed and all applicable tests and approvals are available, however the TM-3 well is not inservice at this time.

Should you have any questions or need additional information, please call me at (801)748-2140 or (801)637-5050.

Sincerely,

Allen Childs
