RE: Mid-Term Review Site Visit, Trail Mountain Coal Company,  
Trail Mountain Mine, ACT/015/004, Folder #2, Emery County,  
Utah

Jim Fricke, Dan Duce, Kathy Mutz, Pamela Grubaugh-Littig, and Bill Malencik visited the Trail Mountain Mine on May 15, 1987, accompanied by Allen Childs. A complete observation of the site was undertaken. The surface facilities map will obviously need to be updated for the mid-term review. The piled material from the sediment pond will need to be addressed. A proposal soon to be submitted by Allen Childs to the Division will handle this issue. The original mid-term review outlined in the March 19, 1987 letter to Allen Childs from Lowell Braxton will be delayed about a month.
