RE: Review of Recompiled Mine Plan, Beaver Creek Coal  
Company, Trail Mountain #9 Mine, ACT/015/009, Folder  
#2, Emery County, Utah

I reviewed Chapters 4, 9 and 10 from the recompiled MRP to see that important information and commitments from Tract 1 and Tract 2 plans had not been left out. The following omissions were noted.

The recompiled plan, Section 9.2.3, page 9-2, states that reference areas were marked on the vegetation map. This was not done.

Section 9.3.8, page 9-35, restates from the Tract 2 MRP: "Two of the sampled vegetation stands are also designated to be proposed as reference areas." It is not clear if these proposed reference areas are the same as those mentioned on page 9.2. Please clarify Section 9.3.8 and designate approved reference areas on a map.

The recompiled plan omitted a commitment made in the Tract 2 plan, Chapter 10, Appendix 9, page 10-6. Trail Mountain committed to report the occurrence and location of road-killed mule deer to the Division of Wildlife Resources. This commitment must be restated in the recompiled mine plan.
