RE: Review of Beaver Creek Coal Company, Trail Mountain Mine,
Mid-Term Review Response, ACT/015/009, Folder #2, Emery
County, Utah

We have received part of the response for the Trail Mountain Mid-Term Permit Review that was compiled August 18, 1987. The materials received to date address only the Tract 1 changes. A fully recompiled MRP has been promised by January 31, 1988.

Utilizing our review letter of August 18, 1987, please analyze the materials submitted by Beaver Creek (this will hopefully include the recompiled MRP) to determine if your concerns have been addressed. Brent Stettler will be handling all comments authored by Kathy Mutz.

Please compile by February 5, 1988, a technical memo to me delineating the adequacy of each response on a regulation-by-regulation basis. In the event Beaver Creek does not come through with the recompiled MRP in time, please complete your review of the materials received and hold off finalizing your memo until we receive the complete submittal.
