Dear Mr. Guy:

Re: Inaccessible Water Monitoring Stations, UG-1 and TM-2, Beaver
Creek Coal Company, Trail Mountain #9 Mine, ACT/015/009-88C
Folder #2 Emery County, Utah

Division Geologist, Rick Smith, has reviewed your May 11, 1988 correspondence notifying the Division of the above noted inaccessible water monitoring stations. Beaver Creek Coal Company is hereby advised to submit an alternate location for an underground borehole monitoring station to replace TM-2. Further, the approved permit application package for the Trail Mountain #9 Mine commits Beaver Creek Coal Company to conduct mine in-flow inventories quarterly. Please submit the most recent inventory results so that the Division, in consultation with Beaver Creek Coal Company, can select an additional underground point to replace UG-1

Please submit the above noted information no later than August 31, 1988.

Sincerely,

A handwritten signature in cursive script that reads "John J. Whitehead".
