Dear Mr. Powell:

Re: Case #K862, Mid-Term Review, Beaver Creek Coal Company, Trail Mountain #9 Mine, ACT/015/009, Folder #2, Emery County, Utah

This letter is in response to your February 12, 1988 correspondence to the Division regarding the above-noted mine. A review of our records indicates the possible source of confusion is a change in ownership of the Trail Mountain Mine in the fall of 1987. Attached are letters of concurrence from the Division of State History for this project, dated April 27, 1984, (Case Number E418), and February 19, 1987, (Case Number G-828).

If after examining these two letters and related case number files, you are still missing information, please contact me. I will arrange for the company to provide you with the appropriate chapters of the Mining and Reclamation Plan (MRP).

For further clarification, you should also be aware that this Mid-Term Review does not involve the addition of any new lands or areas to the mining permit area, nor does it involve any additional disturbance to areas within the permit area, but not presently disturbed.

Thank you for your cooperation in this matter.

Sincerely,

John J. Whitehead
Permit Supervisor/
Reclamation Hydrologist

In Reply Please Refer to Case No. G828

Dear Mr. Schueneman:

The Utah Preservation Office has received for consideration the above referenced project. After review of the cultural resource history on this project, our office concurs with your determination of no effect by this project on any known cultural resources.

The above is provided on request for assistance as outlined by 36 CFR 800 or Utah Code, Title 63-18-37. If you have questions or need additional assistance, please contact Jim Dykman at (801) 533-7039.

Sincerely,

Max J. Evans

RE: Trail Mountain Mine

In Reply Refer To Case No. E418

Dear Mr. Wilson:

The Utah Preservation Office has received for consideration your letter dated April 13, 1984, dealing with the Natoma's Trail Mountain permit application. After review of the site information provided by your office, and our files, our office would concur with the determination that all surface disturbance has taken place, no known National Register eligible site will be impacted, and therefore a determination of no effect is appropriate.

The above is provided on request as information or assistance. We make no regulatory requirement, since that responsibility rests with the federal agency official. However, if you have questions or need additional assistance, please let us know. Contact Jim Dykman at 533-7039.

Sincerely,

Wilson G. Martin
Deputy State Historic Preservation Officer
