Re: Relocation of Powder Magazines
Trail Mountain No. 9 Mine
ACT/015/009
Emery County, Utah

Dear Ms. Littig:

Enclosed are 4 copies of a map and drawing showing the proposed relocation of the powder and cap magazines at the Trail Mountain No. 9 Mine. The relocation has become necessary due to the expansion of the bathhouse facilities and parking area at the mine. The new proposed site is on the upper road, in an area that is used only occasionally by mine personnel.

The magazines will be installed and protected in accordance with all MSHA and other applicable regulatory provisions. This, coupled with the new and more remote location, should actually provide for safer storage of the explosives.

All work, including protection berms, will be confined to the existing disturbed area.

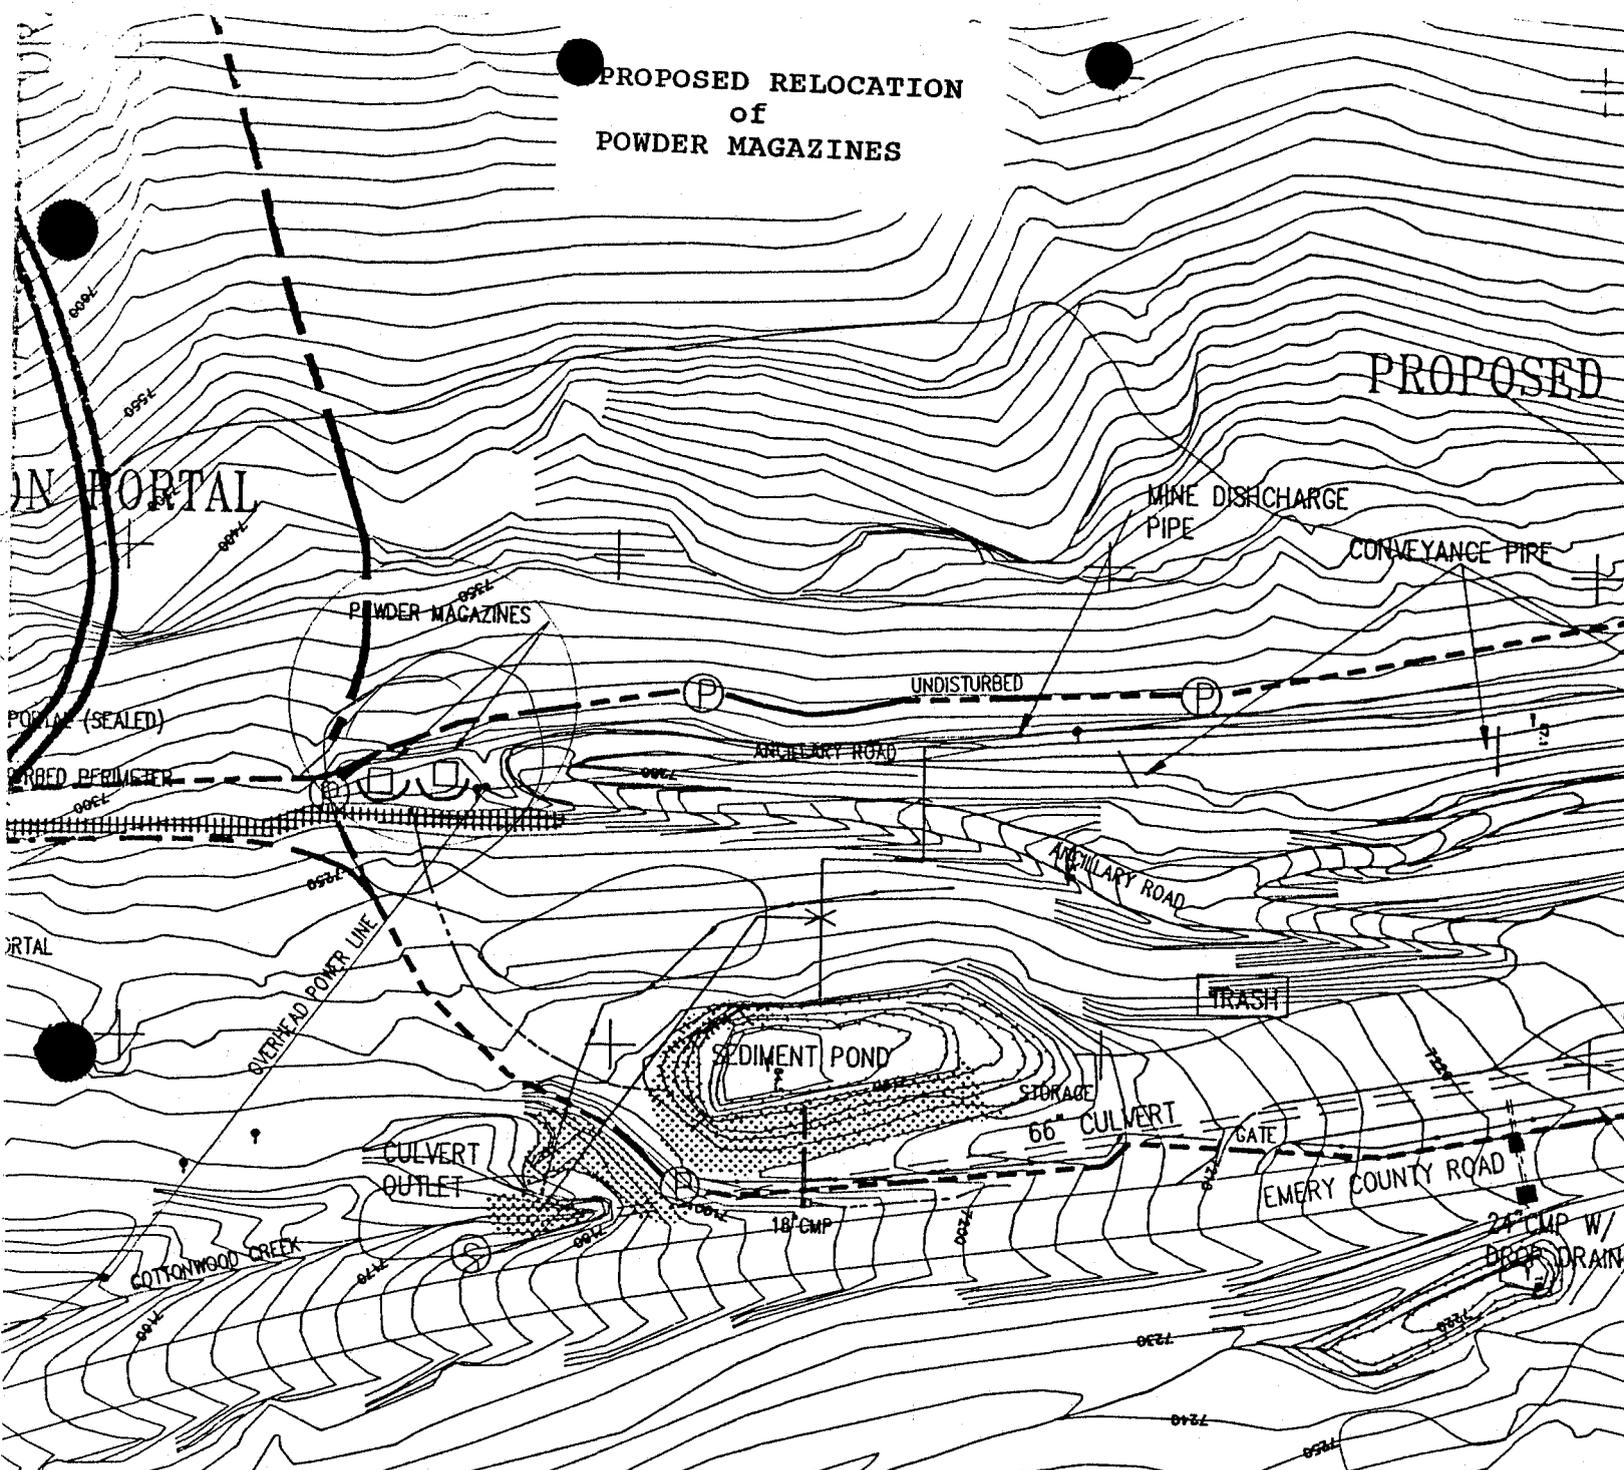

If you have any questions, or need any further information, please let me know.

Respectfully,

Dan W. Guy
Mgr. Permitting/Compliance
