Re: New Coal Handling/Loadout Facility
Trail Mountain No. 9 Mine
ACT/015/009 #2
Emery County, Utah

Dear Ms. Littig:

Enclosed are 4 copies of a proposed new coal handling/loadout facility for the Trail Mountain No. 9 Mine. This facility will replace the existing tipple and stockpile/loadout system. All work will be conducted within the existing disturbed area.

This proposal is submitted as a complete new Appendix (3-8) to facilitate the review. Other necessary changes to the narrative and maps in the M.R.P. as well as new bond calculations, well be submitted for all proposed projects under separate cover.

This project is scheduled to start in October 1990 and be completed in January or February of 1991.

If you have any questions, or need any further information, please let me know

Respectfully,

Dan W. Guy
Mgr. Permitting/Compliance
