Re: Removal of Test Plots
Trail Mountain No. 9 Mine
ACT/015/009
Emery County, Utah

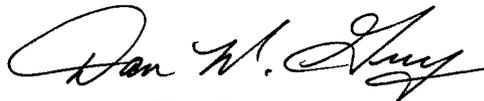

Dear Ms. Littig:

Beaver Creek Coal Company is herein requesting approval to remove the vegetation test plots at the Trail Mountain No. 9 Mine site. This request is based on the discussion and resulting agreement on 9/27/90 between Mr. Patrick Collins and Mr. Henry Sauer and Ms. Susan White of your staff. As also agreed in that meeting, a minimum of 3 soils samples will be taken on the test plots prior to removal. The results of those soils analyses will be summarized and used to help determine the need (if any) for any further tests on this site.

The removal of the test plots will be done in preparation for the culvert extension and bath house installation. If approved, the removal is planned to take place shortly after October 15, 1990. The material will ultimately be used as backfill for the culvert extension.

I appreciate the effort put into this project by you and your staff. If you have any questions, or need any further information, please let me know.

Respectfully,

Dan W. Guy
Mgr. Permitting/Compliance
