Re: Response to T.D.N.'s
Trail Mtn. No. 9 Mine
ACT/015/009
Emery County, Utah

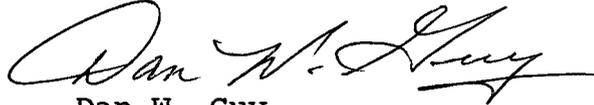

Dear Ms. Littig:

Enclosed are 14 copies of amended pages and plates for the Trail Mountain No. 9 Mine Permit. This information is submitted to clarify discrepancies noted by Mr. Rade Orell during his recent inspection, and listed in the 3 part Ten-Day-Notice 90-02-107-11. An extra copy is enclosed for Mr. Orell - I have also given a copy to Mr. Malencik.

Revised pages and maps should either replace corresponding numbers in the plan, or be added at the designated location. The submitted information will address the issues of the haul road, the concrete diversion, and the sediment pond. In addition, disturbed area perimeter markers at the site have been repainted, and the side canyon by-pass culvert inlet location has been clarified on the maps. The issue of the noxious weeds and reseeding of a portion of the topsoil stockpile will also be addressed in the near future.

I hope this information is adequate to clear up these issues. If you have any questions, or need any further information, please let me know.

Respectfully,

Dan W. Guy
Mgr. Permitting/Compliance
