RE: Lease Permit Application, Beaver Creek Coal Company, Trail Mountain #9 Mine, ACT/015/009, Folder #2, Emery County, Utah

## Synopsis

The initial review of the Trail Mountain #9 Mine Lease Addition indicates that no surface water concerns exist due to the fact that no additional surface disturbance is planned because of this action.

## Recommendation

The surface water concerns are considered non-existent based on the fact this is an underground coal lease accessed from inside the mine and no new surface disturbance is planned.
