RE: **RESPONSE TO DEFICIENCIES IN DIVISION ORDER DO-92A, TRAIL MOUNTAIN MINE, ACT/015/009-DO-92A, PACIFICORP, FOLDER #2, EMERY COUNTY, UTAH** #2

Dear Ms. Grubaugh-Littig:

Transmitted herewith please find three (3) copies of information prepared in response to your letter of December 7, 1992 regarding the above referenced matter. The enclosed material addresses Mr. Malencik's request for additional information (December 3, 1992 memo) as follows:

Memo Item 1- PAP text paragraphs 1.3 and 10.4, Pages 1-8 and 10-36 are revised to reflect the correct disturbed area acreage.

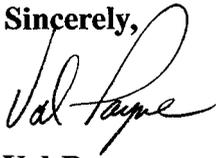

The disturbed area acreage numbers in the Bonding and Reclamation Agreement documents are being corrected; however, the Bond Amount (\$700,000) will not be adjusted. Only 0.19 acres of the additional 0.40 acres of disturbed area are subject to final reclamation. The stream channel change associated with the "BTCA" area below the sediment pond (0.21 acres) is a permanent installation. Therefore, the current bond is adequate to cover the additional disturbed acreage. The revised Bonding and Reclamation Agreement documents will be submitted under separate cover.

Memo Item 2- PAP text paragraph 3.2.10, Pages 3-6 and 3-6a, has been revised to include a discussion of the haul road and pad drainage.

In addition to addressing Mr. Malencik's memo, the enclosed material supplements the information (Pages 3-6b, 7-52a and 7-52b; Figures 3-1, 3-1a, 3-1b and 7-11) submitted by Mr. Dan Guy, on November 9, 1992, in response to the Division Order.

I appreciate your assistance and that of Mr. Malencik in resolving this matter. If you require further information, please call me at 653-2312.

Sincerely,

Val Payne
Sr. Environmental Engineer
