Dear Ms. Littig:

Mountain Coal Company is herein re-submitting 3 copies of a detailed proposal (Appendix 7-14) for the Water Monitoring Well as requested by Mr. Hugh Kline.

This is the same proposal submitted on January 22, 1992 and is also the same proposal submitted to the Division of Water Rights on April 27, 1992 and subsequently approved by them on May 15, 1992.

I have included the approvals from the Division of Water Rights and the Division of State Lands.

It is my understanding we still need approval from the Division of Oil, Gas and Mining, the B.L.M. and the U.D.O.T. before proceeding. The B.L.M. exploration license request is being filed this week. The U.D.O.T. approval is only for right-of-way encroachment, and will be filed upon receiving D.O.G.M. approval.

If you have any questions, or need any further information, please let me know.

Respectfully,

Dan W. Guy  
Manager Permitting/Compliance
