**RE: STRAIGHT CANYON DRILL HOLE, PACIFICORP, TRAIL MOUNTAIN MINE,
 ACT/015/009, FOLDER #3, EMERY COUNTY, UTAH**

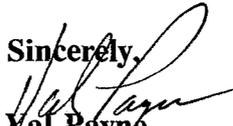

Dear Ms. Grubaugh-Littig:

PacifiCorp had planned to drill the above referenced drill hole in conjunction with the seven (7) surface exploration drill holes proposed for the Trail Mountain area. PacifiCorp's surface exploration application was determined administratively complete on July 16, 1993 and the requisite public notice was published. The publication and comment period will not end until after September 15; therefore, to meet the July 30 deadline for completion of the Straight Canyon hole, a drilling rig would have to be mobilized for a single hole.

PacifiCorp still desires to drill the Straight Canyon hole in conjunction with the surface exploration drilling. Please consider granting an extension until September 30 for completion of the Straight Canyon drill hole.

Thank you for your assistance in this matter. Please call me if you have any questions.

Sincerely,

 Val Payne

Sr. Environmental Engineer
