Mr. Val Payne
Senior Environmental Engineer
PacifiCorp
P.O. Box 1005
Huntington, Utah 84528

Dear Mr. Payne:

Re: Review Requirements for Exploration within Permit Area, Trail Mountain Mine, PacifiCorp, ACT/015/009-93B, Folder #2, Emery County, Utah

The Division determined per letter dated May 12, 1993 that the exploration for Trail Mountain is considered a significant revision. According to R645-201-130, "Information required in the request for approval to conduct exploration within an approved permit area will initially include all of the information listed under R645-201-220, but may require more detailed information by the Division for approval under R645-303-220." Pursuant to R645-201-226, "Significant Permit Revision in R645-303-224 will be reviewed and processed by the Division in accordance with the requirements of R645-300-100 and R645-300-200, and the information requirements of R645-301 and R645-302, including the requirements for notice, public participation, and notice of decision.

The exploration application submitted April 8, 1993 must contain the information requirements of R645-301 and R645-302, where applicable. Due to the fact that this application was submitted to meet only the requirements of R645-201-200, all of the information requirements have not been submitted.

If you have any questions, please call me.

Sincerely,

Pamela Grubaugh-Littig
Permit Supervisor

cc: L Braxton
