 Salt Lake City, Utah 84180-1203

Attention: Pamela Grubaugh-Littig

Re: RENEWAL APPLICATION DEFICIENCIES AND ADDITIONAL
 INFORMATION, PACIFICORP, TRAIL MOUNTAIN MINE,
 ACT/015/009-94C, EMERY COUNTY, UTAH.

#2 Copy Aaron

Per the Division letter dated December 13, 1995 a response to the listed deficiencies, findings and requirements is given as follows:

Based on the legal description in the 1990 Findings Document and the 1991 Federal Lease Findings Document, the legal description in the renewal application is the same except that lots 1 and 2 were omitted from section 35. The description does not state that all of Section 35 is included as shown on the permit map.

1) The status of Section 35 must be clarified.

Please refer to page 2-16, (item (ii)) lots 1 & 2 are listed in the renewal application under a separate lease (U-49332) than the one the Division referenced (UTU-64375) on page 2-17.

The new submittal states that the disturbed area is 10.02 acres. According to the latest 1993, Exhibit A, Surface Disturbance, of the Reclamation Agreement, the disturbed area is 24.78 acres. No changes to this agreement was found in the files. Therefore, the permit document must be revised to state that 24.78 acres have been disturbed or provide evidence that a lesser amount has been disturbed.

2) The disturbed area acreage must reflect the acreage of the most current Reclamation Agreement.

Pages 2-18, 3-11 and 3-33 have been revised to indicate the disturbed area as 24.78 acres.

The revision is in a highlight strike out format with all new pages having a revision date of 10/21/94. All of Chapter 3 was replaced and has the 10/21/94 date. Many of the pages of Chapter 3 were simply renumbered or have non-substantive changes. This will be confusing in the future to have 10/21/94 dates on pages which have minimal or no revisions. When approved as part of the permit package this date will imply that the Division has done a comprehensive review of the permit as recently as 10/21/94. Only those pages with substantive changes should include the revision date of 10/21/94.

- 3) Only those pages with substantive changes should have a revision date of 10/21/94.

PacifiCorp plans to remove the highlight from the text and revision date of 10/21/94 from all pages upon approval of the permit, at which time new copies will be submitted to the Division for inclusion into the MRP. Care has been taken in the submittal of Chapters 4 through 11, contained herein, not to include the date of 10/21/94 on pages that do not contain highlighted text. The Divisions concerns that a comprehensive review has taken place can be alleviated at this time.

Findings:

Numerous inconsistencies and omissions exist in the renewal application. The result is that the plan is difficult to follow and is still, in many respects, not up-to-date.

Requirements:

The permittee must proofread the plan, update the maps where necessary, and clean up and coordinate the text to make the plan a current and orderly document. The following are problems in the plan which are fairly typical. It should be noted that this list is not complete. There may be others.

It is obvious that the Divisions cursory review was not well coordinated. The Division totally ignored that new maps were submitted with chapter 3 which coordinate with the newly submitted text.. Instead the Division referred to the new text from the PacifiCorp Permit submittal and the old maps from the Beaver Creek Permit submittal. Thus, the majority of the Divisions requirements listed and addressed below can be easily taken care of by referencing the right maps and explanations.

- a) The main portal is listed on page 3-1, but it is not shown on Plate 3-1-- Surface Facilities.

Please refer to the newly submitted (10/21/94) Surface Facilities map that does show the main portal or travel portal and not to the Beaver Creek Surface Facilities map from the old Permit.

- b) Page 3-19 mentions Plate 3-3, but the plan says elsewhere that this plate has been removed.

Page 3-19 does refer to Plate 3-3. A word search through WordPerfect 6.0a has been conducted and did not locate any area that states that Plate 3-3 has been removed. If the Division is aware of an area that makes this statement it should be specifically addressed so that PacifiCorp can address this concern.

On page 2-17, the property description of T18S, R6E, Section 2 is "N2¼NE¼SE¼." The "N2" is obviously incorrect. It appears that it should read "NE" instead, but this should be verified before it is changed.

The mistake on page 2-17 has been verified and should read NW instead Of "N2". The change has been made and revised page 2-17 has been included in this submittal.

- d) Page 3-61 mentions Plate 3-5, but there is no Plate 3-5 in the plan.

Please refer to the newly submitted maps (10/21/94) that include Plate 3-5 and not the Beaver Creek maps from the old Permit. Plate 3-5 is Post Mining Contour Maps, Map One is Reclamation Phase I and Map Two is Reclamation Phase II.

- e) Page 3-82 says that Plate 3-6 shows cross sections, but Plate 3-6 shows mining plans. Operational and post-mining cross sections are shown on Plates 3-17 and 3-17A.

Please refer to the newly submitted maps (10/21/94) and not to the Beaver Creek maps from the old Permit. Page 3-82 does say that Plate 3-6 shows cross sections and Plate 3-6 does show Existing and Post Mining Cross-Sections (two maps). The Divisions reference to Plates 3-17 and 3-17A clearly shows that the Division is referring to Beaver Creek Coal Co. maps and not to the newly submitted maps from PacifiCorp. Beaver Creek did not refer to their maps as Plates but as Figures and it is Figure 3-17 and 3-17a that the Division has referenced inappropriately.

- f) Plate 3-6--Mining Plans needs to be updated. It was last updated in 1988 and the mining plans have changed since then.

Please refer to the newly submitted maps (10/21/94) and not to the Beaver Creek maps from the old Permit. Plate 3-6 referenced is a Beaver Creek map. Plate 3-2 of the newly submitted maps from PacifiCorp is the mining plan map and is updated.

- g) Plate 3-10--Permit Boundary needs to be updated. It was last updated in 1988 and the permit boundary has changed several times since then.

Please refer to the newly submitted maps (10/21/94) and not to the Beaver Creek maps from the old Permit. Plate 3-10 referenced is a Beaver Creek map. Plate 3-4 of the newly submitted maps from PacifiCorp is the permit boundary map. This map is being re-submitted with this submittal and the permit boundary has been updated.

- h) Plate 4-2-- Surface Ownership Map needs to be updated. It was last updated in 1988 and the Surface ownership has changed since then.**

Plate 4-2 has been updated and is submitted with this submittal along with several other maps, text and figures.

- i) In general, the maps are mislabeled in that they do not reflect the change of ownership from Mountain Coal Company to PacifiCorp. And some of them are numbered incorrectly or are not numbered at all, which makes them inconsistent with the general format of the text and difficult to find.**

As stated above the concerns listed here are clearly problems by virtue of a haphazard review by the Division. PacifiCorp has or is currently submitting maps that have removed any connection with Mountain Coal, Beaver Creek Coal or Natomas and replaced them with PacifiCorps subsidiary logo Energy West Mining Co. The maps are correctly labeled and numbered to conform to the text.

Findings:

PacifiCorp has deleted information from Sections 3.4.3.1 and 3.4.3.4 regarding the groundwater quantity and quality, and surface-water quality. Other information in these sections has not been adequately referenced and is used for making judgement on the potential impacts to the hydrologic balance.

Requirements:

- 1) PacifiCorp must retain information about spring inventories, groundwater quality and surface-water quality in their respective sections.**

Chapter 3 is Operational and Reclamation Plan. Please refer to Chapter 7, Hydrology, for inventories and information relative to groundwater and surface-water quality as stated in the submittal on pages 3-36 (bottom line) and page 3-37 (bottom line of first paragraph).

- 2) PacifiCorp must reference information used to make conclusions about the hydrology, groundwater and surface-water.**

Please refer to page 3-40 (third paragraph, second line). Information is based on data collected by PacifiCorp. Page 3-40 has been revised to state " (see Annual Hydrologic Reports) and is enclosed in this submission.

PacifiCorp is submitting the following updated information:

Page 2-17	N2 has been changed to NW.
Page 2-18	10.02 disturbed acres has been changed to 24.78 acres.
Page 3-11	10.02 disturbed acres has been changed to 24.78 acres.
Page 3-33	10.02 disturbed acres has been changed to 24.78 acres.
Page 3-40	Added "(see Annual Hydrologic Reports)" to third paragraph, second line.
Plate 3-1a	Has been Certified, original submission wasn't certified.
Plate 3-1b	Has been Certified, original submission wasn't certified.
Plate 3-2	Has been Certified, original submission wasn't certified.
Plate 3-3	Has been Certified, original submission wasn't certified.
Plate 3-4	Has been Certified, original submission wasn't certified.
Chapter 4	Land Status, Land-Use and Post Mining Land-Use.
Plate 4-1	Surface, Coal, Oil and Gas Ownership Map.
Plate 4-2	Land Use Map.
Plate 4-3	Grazing Allotments.
Chapter 5	Historical and Cultural Resources.
Plate 5-1	Cottonwood Creek Cultural Resource Survey.
Chapter 6	Geology.
Plate 6-1	Geologic Cross Section.
Plate 6-2	Geology Map - Trail Mountain.
Plate 6-3	Structural Contour Map - Hiawatha.
Plate 6-4	Overburden Isopach Map - Hiawatha Seam.

Plate 6-5	Isopach Map - Hiawatha Seam.
Chapter 7	Hydrology.
Plate 7-1	Trail Mountain Spring Map.
Plate 7-2	Water Monitoring Locations.
Plate 7-3	Underground Water Monitoring Locations.
Plate 7-4	Surface Water Rights.
Plate 7-5	Drainage Controls.
Plate 7-6	Drainage Areas.
Plate 7-7	Sedimentation Pond Details.
Plate 7-8	Sediment Pond (as constructed).
Plate 7-9	Extent of Alluvium.
Plate 7-10	Cottonwood Creek Channel Change cross sections.
Chapter 8	Soil Resources.
Plate 8-1	Soil Map.
Chapter 9	Vegetation Resources.
Plate 9-1	Vegetation Map.
Chapter 10	Fish and Wildlife Resources.
Chapter 11	Geotechnical/Subsidence.
Appendix 7-1	Water Monitoring Program

Trail Mountain Aquifer Test Results to the back of Appendix 7-14

Please transfer the following appendices from the Beaver Creek Lease Application to the Appendices Volume PacifiCorp Submitted 10/21/94:

Appendix 3-3(L) BLM Approval of R2P2

- Appendix 4-2(L) Federal Coal Lease UTU-64375**
- Appendix 5-1(L) Archaeologic Surveys**
- Appendix 7-14(L) Water Rights**
- Appendix 7-15(L) Drill Hole Water Information**
- Appendix 8-1(L) Prime Farmland Investigation**
- Appendix 8-2(L) Soils Map and Description**
- Appendix 10-8(L) Definition and Explanation of Wildlife Range Areas**

Please insert the cover pages for Appendix 11-1 through 11-6 into the Appendices Volume and transfer Appendices; 12-1 to 11-1, 12-2 to 11-2 , 12-3 to 11-3, 12-4 to 11-4, 12-5 to 11-5 and 12-1(L) from the Lease Application to 11-6.

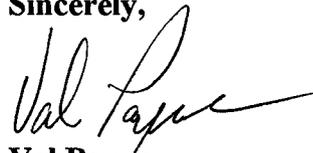

Climatoglogy information has been incorporated into Chapter 7.

Geotechnical/Subsidence information previously in Chapter 12 is now in Chapter 11.

Instructions for updating the Division's Permit Document are outlined on the accompanying Form DOGM-C2. A Notarized copy of form DOGM-C1 is enclosed.

Your help is greatly appreciated. If you have any questions please feel free to contact Karl Houskeeper at 653-2312 ext. #15 or myself at 653-2312 ext. #16.

Sincerely,

**Val Payne
Sr. Environmental Engineer**
