**Re: Amendment to Trail Mountain Mine Permit for 1993 Exploration Reclamation:
 Removal from Disturbed Areas of the PacifiCorp, Trail Mountain Mine,
 ACT/015/009, Emery County, Utah.**

PacifiCorp, by and through its wholly-owned subsidiary, Energy West Mining Company ("Energy West") as mine operator, hereby submits an amendment regarding the above subject matter.

Introduction

In September of 1993, Energy West Mining Company had approval for exploration drilling above the Trail Mountain mine (see map in Appendix A). Seven holes were proposed (TMTN-9 through TMTN-15) that would have disturbed 14.76 acres. A total of five were drilled (TMTN-10 through TMTN-14) which only disturbed 14.15 acres, including pads and access roads. The latter acreage was calculated by eliminating two 50'x70' pads and one 2000' access road.

Drilling was completed in October and reclamation of the pad sites was accomplished by early November. The main access road remained in service for exploration programs conducted in 1994 and 1995 (refer to drilling and reclamation sequence below and map in Appendix A).
