**Re: AS BUILT DRAWINGS, PACIFICORP, TRAIL MOUNTAIN MINE,
 ACT/015/009, -96C,-96D,-96E,-96F, EMERY COUNTY, UTAH,**

#2

PacifiCorp, by and through its wholly-owned subsidiary, Energy West Mining Company ("Energy West") as mine operator, as requested, hereby submit seven copies of the Surface Facility Drawing TMS-1362-D, depicting all areas wherein amendments were required during the year 1996. Without any shading of the revision areas.

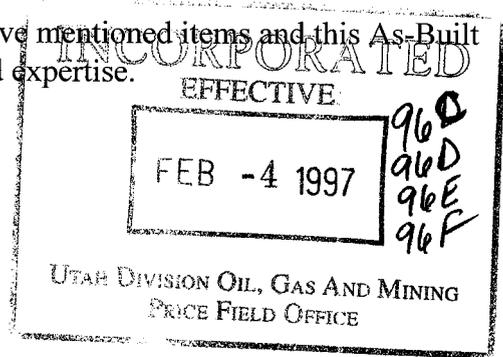

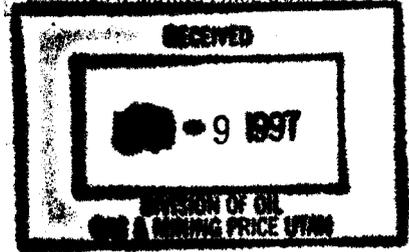

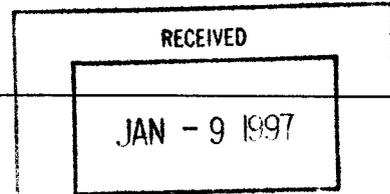

In addition to the previously submitted revision areas, the Non-Coal Waste Bunker has been placed on the drawing. As outlined in the amendment submitted and approved on October 22, 1996, the Non-Coal Waste Bunker consists of two concrete walls approximately 25 feet apart and is situated below the diesel roadway entrance to the mine. By including the Non-Coal Waste Bunker on the drawing at this time, the surface facility drawing TMS-1362-D for the year 1996 is now completely updated and finalized.

All follow-up requests for the Non-Coal Waste Amendment have now been met with this submittal. (Received approved copies from DOGM for the permit page revisions on Dec. 11, 1996.)

Thank you for the help and assistance in getting all the above mentioned items and this As-Built processed and approved. We appreciate your diligence and expertise.

Sincerely,

Richard Northrup
 Env. Eng.
