TO: Joe Helfrich, Permit Supervisor 

FROM: Wm. J. Malencik, Reclamation Specialist 

RE: Relocate Main Gate, PacifiCorp, Trail Mountain Mine, ACT/015/009-97A,
Folder #2, Emery County, Utah

This has reference to the above amendment. As the record shows, the amendment was approved under the old procedures by the undersigned on March 4, 1997. You, among others, received a copy of the approval letter. The permittee on April 2, 1997 submitted follow-up documents as required by the March 4, 1997 approval letter.

You will note the permittee has shaded the changes on the Surface Facilities Map. Further, after review and approval his letter states that seven copies of the unshaded Surface Facilities Map will be submitted to your office.

RECOMMENDATIONS

I have reviewed the submitted map and recommend it be approved, the permittee be so notified, and instructed to submit seven copies of the unshaded certified maps for distribution and for the official MRP record.
