Re: Submittal of Clean Copies for Trail Mountain Mine MRP, ACT/015/009-98A/98B, Emery County, Utah

Enclosed are seven (7) clean copies of the Trail Mountain amendments for surface facility alterations dated September 29, 1998 and November 9, 1998. These amendments are being submitted together since both involve changes to the Trail Mountain surface facilities map. We are taking the "kill two birds with one stone" approach by incorporating these amendments in this manner.

Included with this "clean" submittal needing stamped are as follows:

- Volume 1, Chapter 3, page 3-2
- Appendices Volume, Appendix 3-10
- Drawing TMS1362D, Surface Facilities Map

A certified design of the salt shed which was requested by the Division is also included with this submittal. Please stamp all clean copies so they can be incorporated into the MRP.

If you have any questions or concerns, please feel free to call me at 687-4825.

Sincerely,

Dennis Oakley
Environmental Engineer
