Hi Priscilla,

Amy gave me the updates you sent on Berkshire Hathaway Inc, etc. I checked this company. You had circled Vice on Charles T Munger for Vice Chairman of the Board. Unfortunately when a company is locked you cannot see the extended description from the OFT of the company, but if you go the individual you can see all of the description. Please look at 158508 and you will see the entire position. There is no other way to do this with our current system. Also if a person has a position that is not on our drop down then we give that person the corporate officer listing and do the same with the specific title on the extended description area, so you will need to look at 158509 too. Hopefully with the redesign that is in progress this extra looking will be eliminated.

Thanks.

I hope you had a wonderful Christmas and Happy New Year's Day!
