Re: Annual Report Fossil Rock Resources, LLC, C/015/0009

Dear Sirs:

Please find enclosed with this letter a copy of the annual report for the Fossil Rock Mine and Waste Rock Site.

The inspection reports for the ponds and waste rock site were submitted quarterly following completion of the inspections. The raptor survey completed in 2016 was submitted to the Division as an amendment on 11/30/2016 at the request of Lisa Reinhart and therefore has not been included in the annual report.

If you have questions or need additional information please contact Vicky Miller at (435)286-4481.

COMMITMENTS AND CONDITIONS

The Permittee is responsible for ensuring annual technical commitments in the Mining and Reclamation Plan and conditions accepted with the permit are completed throughout the year. The Division has identified these commitments below and has provided space for you to report what you have done during the past year for each commitment. If additional written response is required, it should be filed as an attachment to this report.

Title: REMINING WASTE ROCK FACILITY

Objective: Provide an as-built drawing of the work, including soil salvage volumes

Frequency: Annually

Status: Ongoing

Reports: Annual Reports

Citation: MRP, R645-301-231.100

Operator Comments

According to the approved permit with an DOGM incorporated date of Dec 07 2015 on the page - "Within six months of the completion of the mining of the pile an as-built drawing and salvaged soil quantities will be incorporated into the permit." (Section 200: Soils, page 4, R645-301-231.100) The mining of the pile was not completed in 2016 and when completed the information will be incorporated into the permit as written in the commitment referenced above.

Reviewer Comments Met Requirements Did Not Meet Requirements

Title: Subsidence Monitoring

Objective: Use aerial photogrammetric survey methods and annual helicopter reconnaissance flights to monitor subsidence

Frequency: Annually

Status: Ongoing

Reports: Annual Reports

Citation: MRP V.1, Ch.3, Section 3.4.8.3, pg. 52, Section 3.5.6.2 pg 68

Operator Comments

There has been no underground mining at this location since March 15, 2001, therefore no subsidence occurred in 2016.

Per permitting revisions with incorporation date on the page of APR 05 2016, Section 3.4.8.3 no longer has a subsidence monitoring commitment, therefore it should be removed from the citation. Section 3.5.6.2 does have the following commitment, "Annual surveys will be conducted to determine surface deformation due to subsidence and possible movement of surface subsidence monuments."

FUTURE COMMITMENTS AND CONDITIONS

The following commitments are not required for the current annual report year, but will be required by the permittee in the future as indicated by the "status" field. These commitments are included for information only, and do not currently require action. If you feel that the commitment is no longer relevant or needs to be revised, please contact the Division.

Title: Vegetation Monitoring

Objective: Observe revegetation efforts

Frequency: Annually upon revegetation

Status: Revegetation efforts have not been initiated

Reports: Annual Reports

Citation: MRP, R645-301-231.100

Title: Roof and Floor Samples

Objective: To determine if toxic or acid forming potential exists

Frequency: Annually during mining operations

Status: To be initiated if mining resumes

Reports: Annual Reports

Citation: MRP Vol 1 Chapt 6 Section 6.6.5 pg 6-8

Title: Groundwater Monitoring

Objective: Analyze mine working water balance, account for mine inflows, outflows, consumptive uses, and sump storage

Frequency: Annually during mining operations

Status: To be initiated if mining resumes

Reports: Annual Reports

Citation: MRP Vol 1 Chapt 6 Section 6.7 pg 6-10
