Inspection Memo
to Coal File:

RE: Emery Deep Mine
Consolidation Coal Company
ACT/015/015
Emery County, Utah

The above operation was inspected by Mike Thompson, Doug Stewart and Joe Helfrich from the State Division of Oil, Gas and Mining and Eileen Dougherty and Jim Dederick from the Office of Surface Mining. The inspectors and technical staff were accompanied by Ron Thompson, Mining Engineer from the Emery Deep Mine.

The previous Office of Surface Mining inspection indicated the need for outslope stabilization along the access road and haul road near the tipple area. Ron Thompson stated that the outslopes would be reseeded this fall.

The proposed surface water runoff sedimentation pond has been completed by D'Appolonia Consulting Engineers Inc. and approved by the State Division of Oil, Gas and Mining. The remaining surface facilities were inspected and no violations were issued.

JOSEPH C. HELFRICH
RECLAMATION OFFICER

cc: Murray Smith, O.S.M.

Note: For statistics see Deer Creek memo dated November 26, 1979.
