Dear Mr. Daniels:

It is our understanding that your agency plans to implement a permanent regulatory program for coal mining and reclamation operations as authorized under the Surface Mining Control and Reclamation Act of 1977. Consolidation Coal Company is in the process of assembling permit applications for its existing mines under such a permanent program.

We would like to know how many copies of each mine's application your agency would require under a permanent program. Knowing this now will enable us to prepare sufficient complete copies for a timely submission. Can we assume that you will want the same number of copies that are presently being submitted for a state permit, or will some other number? A response by January 25, 1980 would be greatly appreciated.

Thank you for your cooperation.

Sincerely,

*Keith R Lucas*

Dear Mr. Lucas:

In answer to your letter of January 11, regarding submittal of permit applications under the permanent program, the Division requires that 11 copies of the application be submitted for operations involving federal lands and 5 copies for operations in which no federal land is involved.

Please do not hesitate to contact this office should you have any further questions.

Sincerely,
